SPECULATIVE INTEREST IS DECLIN-ING AND PRICES ARE. EASY.

Reading the Most Active Stock in the List, Mostly Selling-High-Grade Securities in Some Demand.

NEW YORK, April 28 .- Speculative interest in stocks showed a considerable falling off to-day and the full day's transactions scarcely reached a million shares, for the first time in two weeks. The feverish J. T. Polk Co., 7 p. c. pref. stock activity which has characterized the recent leadership of the market was decidedly lacking, if the rather large dealings in Reading be excepted. The tone of the American Can market was halting and uncertain, and the movement of prices was not uniform. The predominant movement, while it failed to embrace the whole list, itself changed a umber of times during the day. The failure of the conference committees of the anthracite miners and operators to agree on terms on Saturday was a disappointment, and the tone of the comment of the parties to the conference caused a disagreeable impression. The result was free selling of Reading in the opening dealings. which affected the whole market. This weakness was overcome by strong advances in some of the high-priced coalers. The part played in the market by the high- 34.881/404.89; commercial bills. \$4.84% 404.85%. priced stocks, of which the floating supply is very small, was notable and their wide movements resulted from a light volume of transactions. As the upward flight of Delaware & Hudson and of New Jersey Central rallied the Readings, so did the spurt in the Chicago & Northwestern stocks give some strength to the grangers and Pacifics. St. Paul was lifted 2 points over Saturday's closing, and there were gains of 1 to 2 points among the South- \$8,719,949; balances, \$1,435,734. westerns. The gains were not well held, however, and there were constant relapses when the market was allowed to become quiet. New York, New Haven & Hartford was another of the high-grade stocks to move, but it saved only a point of its Beginning May 3, open until 6 p. m. on 7-point advance. Among the industrial specialties there were wide advances in Pullman, International Power, American Express, Pressed Steel Car preferred, Railway Steel Spring, and some others which | for the account. Exchange on London, are even more seldom active. The Cotton | 25f 28c for checks. Spanish fours closed Oll stocks, Virginia-Carolina Chemical and at 78.72. American Agricultural Chemical were advanced on talk of consolidation. There were stocks of a number of small railroads which were bought on reports of the large ac tivity of local traffic on the railroads, which is calculated to benefit especially this class of roads, and the demand resulted in wide dvances in some of the preferred and losely-held common stocks. Reports of railroad earnings received during the day were generally favorable and included net earnings for March of a number of systems. Colorado Fuel and Tennessee Coal were bid up late in the day as the local tractions had been earlier, but relapsed again without much effect on the general market. The varying movement in the grain market was reflected from time to time in the stock market, but not in a decisive way. The usually active industrials were generally quiet. The heavy reduction in the Calumet dividend depressed Amalgamated Copper. Sugar was affected by lower prices for the refined; United States Steel seemed to reflect disapprovaof the bond issues, and United States

Leather was affected by realizing. The firmness of foreign exchange reawakened discussion of probable gold exports, but the money market was unaffected. The market closed dull and easy. The bond market was moderately active and strong. Total sales at par value were \$4,045,000. United States bonds were al unchanged on the last call.

EVER, CLOSE AT DECLINE.

CHICAGO, April 28.-It was bad weather

though the frequent change in front of the speculators made the tension somewhat July, 73%c; No. 2 hard, 77@80c. marked. At the opening the news of general rains in all the principal wheat States Heavy calves...... 4.00@ 6.25 except Kansas started wheat at a liberal Prime to fancy export bulls..... 4.50@ 4.75 decline from Saturday's closing prices. The Southwest sold liberally and helped hold prices back. The situation, however, for some time seemed to favor the bulls. Cables were higher, primary receipts were light, showing rapidly decreasing market was steady to strong at Saturday's stocks, and the Northwest bought well of cash stuff and started an advance. Prices worked up a little and were helped considerably by the remarkable decrease in the visible supply. On the strength of this The pit crowd, however, was considering the heavy world's shipments and the general weather situation, and fought hard against the advance. When reports of more liberal offerings in the Northwest by the farmers and of rains in Kansas arrived there was a renewal of the selling movement that had weakened the market at the opening. Prices steadily declined with active and heavy selling until July reached 75c A show of improvement in receipts, though they are still small, had a bearish effect. July closed weak and 1611%c lower, at 75%c. Local receipts were twenty-three cars, one strong from both local and Eastern sources. of contract grade; Minneapolis and Duluth reported 230 cars, a total of 253, Spring lambs\$7.50@10.00 | last week and 357 a year ago. World's ship-Good to choice lambs...... 5.75@ 6.50 | ments were 8,963,000 bushels, compared with 7,470,000 last week and 7,794,000 a year ago. Good to choice yearlings 4.00@ 4.25 | Primary receipts were 362,000 bushels, ances in wheat and flour equaled 268,000

> at 631/2c. Receipts were 104 cars. ony of a quiet market and helped uphoid

> Interest in May oats relieved the monotof the near option and prices advanced somewhat. The generous rains, however. have increased the prospects of the coming crop, and as receipts grew larger and wheat 193 cars.

> The provision market was manipulated again by packers to-day for higher prices. The early tendency was to sell on the grain situation and for profits. Brokers at once began buying for packers, especially of lard and ribs, and prices fluctuated nervously. Offerings by scalpers as well as by packers became liberal after the price had been pushed up, and on an absence of any urgent demand and the wheat break most of the early gain was lost. The hog market was strong. July pork closed 21/2c lower, at \$17.021/2, after selling at \$17.17%. lard 21/2c up, at \$10.10, and ribs a shade higher, at \$9.421/2@9.50. Estimated receipts for to-morrow-Wheat 55 cars; cern. 115; oats, 260; hogs, 20,000 head Leading futures ranged as follows:

.. The Wonder of the Age ... THE "OMEGA" ODORLESS

SANITARY GAS STOVE A decided innovation in gas heating. Unique, scientific. Destroys injurious products and organic matter by intense heat.

ENGLISH.-From opinion of George Rudd Thompson, F. E. C., F. M. R. S., etc., Public Analyst, Newport, Eng. "In my opinion the maximum of heat is evolved by the combustion of the minimum of Gas, without any smell or undue dryness of atmosphere. The theory of stove in my opinion, perfect and the result ditto. The percentage of carbonic acid is not sensibly raised in a closed room after ten hours' burning, and the air is not dried to an appreciable extent. I am simply delighted with it, and am quite in a position to recommend it for offices, sick-rooms,
